

HOSPITALITY DESIGN

Dimension IV – Madison Design Group provides design services for a wide range of hospitality projects: hotels, restaurants, taverns, coffee shops, and meeting and banquet facilities.

Our services are tailored to the specific needs of each client and include architecture, site planning, feasibility studies, sustainable design, engineering, renovations, franchise buildings, tenant build-outs, and full-service interior design, including design and procurement of furnishings, fixtures, and equipment.

We are committed to high quality and innovative design solutions that not only meet the client's needs and dreams but benefit the users and neighboring community as well. We take a collaborative approach to each and every project, working closely with, and listening to, the owner and contractor to deliver the project on time and within budget.
